

# Nebraska Assessment System

**Audience:** All educators and administrators

**Description:** This workshop details information regarding Nebraska's assessment system, better known as STARS. The philosophy behind the system, the mandates supporting the system, the steps of the process, and the implementation of the process into the classroom are all addressed.

**Format Available:**

- Late start or early out

## Assessment Development

**Audience:** All educators

**Description:** This workshop addresses the process of developing quality classroom assessments. The criteria for developing quality assessment are considered as classroom assessments are developed. This process can be applied to all content levels at all grade levels.

**Formats Available:**

- A series of late starts/early outs
- Four to five full days

Assessment + Workshop

# Assessment Review and Revision

**Audience:** All educators and administrators

**Description:** These workshops focus on the review and revision of previously developed assessments using the Six Quality Criteria for quality assessment: match to the standard, opportunity to learn, bias review, appropriate level, reliability, and mastery level cut scores.

**Formats Available:**

- Series of late starts/early outs
- Half days
- Full days

# Assessment Portfolio

**Audience:** All educators and administrators

**Description:** This workshop addresses the purpose for and process of developing the district assessment portfolio. Using the the documentation produced in the above assessment review workshops, assessment portfolios are developed representing your district's assessment process and assessment quality.

**Formats Available:**

- Full Day

Assessment + Workshop
