

Math Standard: 12.1.1 Real Number Sets

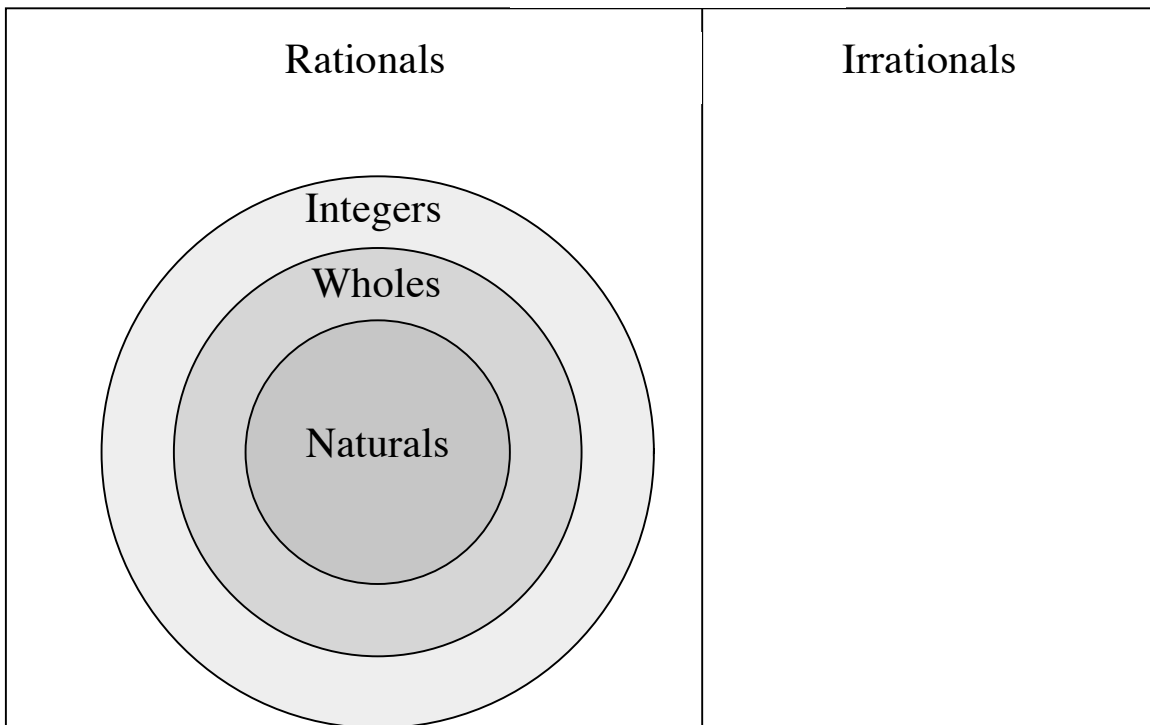

Level: High School

Standard/Benchmark Analysis: 12.1.1

By the end of the twelfth grade, students will describe and compare the relationships among all subsets of real numbers.

Example

Real Numbers

Activity Ideas:

1. Provide students with a list of numbers that includes all types of numbers. Have students place each number in the appropriate section of the diagram.
2. Have students label the parts of the blank diagram and add their own examples of numbers.
